

Build Your Own Rain Barrel

This workshop will be held **May 15, 2010 from 10-12**

A rain barrel is a rainwater collection system that stores rooftop runoff to be used later for activities.

Collecting rainwater from your roof during storms can not only lower your water bills, but also help to decrease water demand during the hot summer months. Each barrel will have a 55 gallon capacity.

Limited to **25** participants so register soon! Registration is due by **Friday April 23.**

Build and take home your own
rain barrel for only \$45

Brought to you by Montgomery Soil
and Water Conservation District
